GREEN DESIGN DIVA

INTERIOR DESIGNER **KARI WHITMAN** IS ONE OF HOLLYWOOD'S MOST SOUGHT-AFTER TALENTS. CLIENTS SUCH AS JESSICA ALBA, VIRGINIA MADSEN, AND KRISTEN BELL HAVE FLOCKED TO HER FIRM, KARI WHITMAN INTERIORS, FOR HER TRADE-MARK ECLECTIC STYLE AND ECO- AND PET-FRIENDLY GREEN DESIGNS.

What projects are you working on?

An amazing home for a prince. I completely transformed the space and changed the floor plan to take advantage of beautiful views. It's an Asian Modern look—very luxurious, but also eco-friendly!

If you could take only one person on vacation, who would it be?

Emilio Estevez. He's a beautiful soul, an amazing man, and my oldest friend in LA. I'd love to meet up with him to look at beautiful art and architecture...and drink lots of wine!

What's your favorite place to escape to?

My house in Boulder, Colorado. It's a great place to reset and recharge—especially living and working in LA.

What would you pack?

Sorel hiking boots, Splendid T-shirts, a pair of denim jeans, Konstantino jewelry, and lots of Ti-Sile sunscreen!

Three items you couldn't leave behind?

My rescue dogs, Madi, Lucy, and Dr. Pepper Lip Smacker!

How do you go from day to night without taking your entire closet with you?

I bring scissors! I've been known to pull them out to cut off a long dress, my bangs, T-shirts, or pants to update an outfit.

What shoes do you pack?

Frye riding boots, Sorel hiking boots, Nike rain boots. When I'm not wearing boots, Christian Louboutin wedge sandals.

What handbags?

Always Stella McCartney!

What's your favorite item this season?

Long tie-dyed dresses from Young Fabulous & Broke. I bought one in every color... I'm not sure yet if I'll cut them up.

What projects are you working on?

I'm working on my husband's film project and co-hosting the opening of the LACMA Resnick Pavilion.

If you could take only one person on vacation, who would it be?

Besides my husband, I would take my daughter, Asia Chow.

What's your favorite place to escape to?

Venice, Italy—the perfect getaway, with its romantic atmosphere and sophisticated style, and the delicious fresh and authentic cuisine.

What do you pack?

When I go to Venice I take a few Lanvin silk dresses. They're light and don't take up much room. I also pack my silver art deco jewelry by Jean Dunand.

Three items you couldn't leave behind?

My Vivienne Westwood bustier top. You never know if you'll have to attend a more formal event, and this top exudes femininity and glamour. I'd also take my YSL caftan and my emerald ring.

How do you go from day to night without taking your entire closet with you?

This is a challenge for many women when they travel, but for me it's about accessories and shoes. They complete the outfit and can transform a piece of clothing from daytime to nighttime.

What shoes do you pack?

Definitely my Hermès "H" sandals. Hermès makes the most beautiful sandals in a variety of colors. I also bring black YSL pumps. They can dress up any outfit.

What handbags do you travel with?

My small Hermès Kelly bag. I stuff that into my big Hermès Birkin bag when I travel—they're perfect for any occasion.

What's your favorite item this season?

Alexander McQueen's Fall/Winter 2010 collection.

Alexander McQueen wool-blend double-breasted coat, \$800, netaporter.com
